WORK EXPERIENCE

Senior UX/UI Designer | Enpal – Berlin, Germany 11/2024 – Present

- **Enterprise Sales Platform & Strategic Integration:** Led end-to-end UX/UI design for a flagship sales platform, integrating external partner financial advisors (including DVAG) to scale system adoption to 25,000+ nationwide active users.
- **Design System Tokenization:** Tokenized the Ant Design UI library utilizing Figma variables to establish a single source of truth, accelerating design-to-development handoffs and ensuring cross-platform UI consistency.
- **Strategic Cross-Functional Alignment:** Partnered directly with Sales Leadership, Marketing, and Customer Portal teams to unify user experience across internal tools, third-party partner portals, and customer touchpoints.
- **Design Governance & Advocacy:** Elevated team-wide design standards by actively leading design critiques, establishing scalable UI guidelines, and aligning product strategy with business OKRs.

UX/UI Designer | Enpal – Berlin, Germany 09/2021 – 10/2024

- **Fulfillment & Operations Ecosystem:** Served as dedicated lead designer for three operational fulfillment teams, enhancing field installation efficiency and operational workflows across the enterprise ecosystem.
- **Backend Matching & Scheduling App:** Designed an automated backend matching and scheduling tool for account managers to assign field teams and optimize installation logistics.
- **Mobile Field App:** Conceptualized and shipped a high-adoption mobile application for field technicians, prioritizing intuitive documentation interfaces and offline-first UI patterns for high-frequency usage.
- **Design System Stewardship:** Expanded and maintained the main design system library, ensuring long-term scalability and design consistency across enterprise products.

Junior UX/UI Designer | Skill Yoga – Berlin, Germany

04/2021 – 08/2021

- **Computer Vision Integration:** Collaborated with machine learning engineers to design UI/UX patterns for real-time motion tracking and mobile camera body alignment feedback.
- **User Research & Testing:** Conducted end-to-end user interviews and intercept surveys to validate feature hypotheses and align product roadmap with real user pain points.
- **Mobile Retention Flow:** Refined core onboarding and daily habit-building flows to turn real-time fitness data into actionable user habits, boosting retention metrics.

Partner Account Executive | Booking.com – Berlin, Germany

03/2014 – 08/2018

- **User-Centric Advisory:** Managed enterprise partner accounts and leveraged direct client feedback to consult partners on commercial performance and extranet platform usability.
- **Platform Operations & Support:** Provided comprehensive support for hotel partners navigating complex property management tools, building early expertise in complex enterprise UX workflows.
